EXPERIENCE

PRIZM ENERGY FOR ELETRMECHANICAL CONT.L.L.C Dubai, United Arab Emirates

Full-Stack Software Engineer → Team Lead 05/2023 - 04/2026 (Remote)

- Developed and customized enterprise modules for Perfex CRM, including budgeting, resource allocation, manpower deployment, cash flow, LLM integration, Quickbook integration and API management system.
- Designed and implemented a centralized AI integration module, enabling multiple systems to leverage AI while tracking token usage, cost, and user activity for auditing and optimization.
- Built scalable backend systems and APIs using PHP (CodeIgniter), Node.js, and MySQL, supporting internal business workflows.
- Architected a modular system design allowing customization without modifying the core CRM, ensuring seamless upgrades and compatibility with third-party modules.
- Developed automation scripts using Python and Selenium to scrape tender data from UAE websites, enabling business teams to identify and apply for new opportunities.
- Built a custom Microsoft Outlook extension to extract and insert structured data directly from emails into internal systems, improving operational efficiency.

Madiotic Islamabad Pakistan
Software Engineer 03/2022 - 01/2024 (On Site)

- Built modern web applications using React.js, Next.js, Node.js, and Express.js
- Integration with third part services

BeeTechnica Abbottabad, Pakistan
Software Engineering Internee 07/2018 - 08/2019

- worked with React.js/Next.js on real-world features
- learned how to write clean code
